November 11, 2009

If you smell buttered popcorn Friday night, November 13th in Tonawanda, don't be alarmed. It's the annual Boy Scout popcorn distribution event at Speed Global Services. Every year, Speed Global Services graciously provides warehousing and material handling at no charge to the Boy Scouts in the Greater Niagara Frontier Council for the distribution of almost \$300,000.00 of popcorn in one evening. The Boy Scouts use the annual popcorn sale to help fund the camping, leadership and character building programs of the many Packs and Troops in Western New York. Our popcorn sale teaches young men the art of salesmanship, the value of money management and the joy of helping to earn your way. Many scouts even pay for their week of summer camp from the profits. Over 70% of the cost of the product in the sale is returned to scouting right here in Western New York. Our customers know they are making an investment in the future when they support a Scout and purchase popcorn. If you would like to know more about Scouting or the annual popcorn sale, call our Boy Scout Headquarters at 891-4073. If you have warehousing or transportation needs call on Speed Global Services, a great friend of Scouting.
