

To Whom It May Concern:

Speed Global Services is a certified member of the Customs-Trade Partnership Against Terrorism (C-TPAT). We are committed to supporting C-TPAT and its goal of anti-terrorism through providing a secure supply chain. In order to comply with this commitment, Speed Global Services has evaluated its current security measures and implemented a custom security program to manage security risks.

One of our requirements as C-TPAT members is to provide guidelines on security procedures to be utilized by our supply chain partners. If your business is not currently a C-TPAT member, information on enrollment as well as guidelines can be found at www.cbp.gov. In the effort to increase supply chain and border security, we request you adhere to the C-TPAT guidelines. We encourage you to join us by participating, improving and communicating more comprehensive security measures to the business partners and subsidiaries of your supply chain.

Thank you in advance for your cooperation!
