

NAFTA VERIFICATION RULES

1. Determine the HS Code for product
2. Consult the section of the NAFTA Rules of Origin that are specific to that HS Code
3. Determine which qualification method(s) are available for your product
4. Perform the full analysis required by that qualification method (the “preference criterion”)
5. If the product qualifies, prepare a NAFTA Certificate of Origin
6. Have that Certificate signed by the most senior person with customs and product knowledge
7. Please retain these records for 6 years plus one
